COMMENTS: To Ray + Staff: Thank you for the prompt + courteous response + service you gave me with your well planned and very informative presentation, and your knowledge of plants, trees, shrubs, flowers, and bushes, were very impressive. The interest and cooperation and quality guidance your staff showed me, to create a beautiful and yet very functional landscape was greatly appreciated. Your proposal of putting in a walkway for the disabled patrons to tie in with the existing walkway turned out not only beautiful and functional but true. Balanced out the entire landscaping design. The sod was added, boxes and the squaring up and protection around the utility boxes and pipes were a thoughtful addition. The sprinkler system will save water and will maintain the survival of the entire landscape I can speak for the entire Library Board of Trustees, Library staff and all who have voiced their opinion to say, your company did a beautiful job. Thanks again: Alice A. Beam
